PROCEDURE TO SEND A DASHBOARD TO BE REPAIRED:

1. Fill the “repairs form” describing the problem of the dashboard with the **maximum care**. It’s important to specify if there was a previous attempt of repair.
2. Send the “repairs form” to the following e-mail address **repairs@minitools.com** or by fax to the **+39.080.4327154**. If it’s possible please send some pictures too, showing the defect.
3. **Wait for the authorization** of SAVIX srl to send the dashboard. The company will supply all information and a **quotation of the cost**. If it’s not possible to quote the repair immediately, the calculation will be done after checking the dashboard. **Put a copy of this module inside the package**.
4. The customer is free to use his own courier to send the dashboard to SAVIX srl.
Delivery cost to send back the dashboard in **EU countries** will be 13,00 euro. The courier will be chosen by SAVIX srl.
5. The customer **must pay delivery cost** even if is **not possible to repair** the dashboard.
6. **The repair will be managed separately from selling**. It won’t be possible to send it in the same package of an eventual order. That’s why delivery cost will always be paid.
7. **Dashboards** have to be sent **complete of every part**. Single boards or single dashboard parts won’t be accepted and they’ll be sent back to the customer.
8. The delivery of the dashboards must be **accompanied by a document of transport**.
Send to:
SAVIX srl
C/da Popoleto 14B
9. Items without this document will be sent back and the delivery cost will be charged to the customer.
10. Warranty on repairs is valid **12 months** starting from the date written on the Warranty Seal applied on the dashboard by SAVIX srl. If the seal is damaged, warranty won’t be valid anymore.
